

Privacy policy

First Choice Technology, Inc. is committed to protecting your online privacy while providing you with the most useful and enjoyable Web experience possible. While you can use many features of <http://www.firstchoicetele.com> anonymously, you are required to provide personal information to gain access to some of our content and services.

How we protect your personal information

All personal data you enter on <http://www.firstchoicetele.com> is encrypted with secure server software (SSL) that encodes the information before your Web browser software sends it to us. The SSL software decodes the data only after it reaches our server, meaning hackers can't snatch any of your personal information while it is in transit. Once the data reaches our site, the same state-of-the-art security software we use to guard all of our company's essential business data protects your personal data as well.

In addition to using the most secure technology available, we work tirelessly to make sure that we use any information you provide us only in ways you have approved. We send you only the e-mail you have approved in your account information.

How we use "cookies"

As you probably know, "cookies" are small pieces of information that some Web sites store on your computer's hard drive when you visit them. Like many other Web sites, <http://www.firstchoicetele.com> uses cookies to identify members so they don't have to enter a user ID and password upon each visit. Most Web browsers automatically accept cookies but allow you to modify security settings so you can approve or reject cookies on a case-by-case basis. Even if you do not use cookies, you can still access all of the features on our site by logging in manually with each visit.

What we provide to third parties

While First Choice Technology, Inc. does not provide any third-party access to your personal information, we may provide third parties with aggregate statistics about our customers, traffic patterns, and related site information. This data reflects site usage patterns gathered during millions of customer visits to our Web site each month, but it does not contain behavioral or identifying information about any individual member unless that member has given us permission to share that information.

Obtaining your consent

By using our Web site, you give First Choice Technology, Inc. permission to collect information about the pages served to you as an anonymous user for the purpose of calculating aggregate site statistics. If you register at <http://www.firstchoicetele.com>, you authorize First Choice Technology, Inc. to use information you provide to personalize the information we deliver to you and to use your demographic information when calculating aggregate customer data. As a registered member, you give First Choice Technology, Inc. and our agents permission to send you e-mails related to the subscription e-mail services to which you subscribe.

If you are under the age of 18, you must not provide your name, e-mail address, or any other identifying information without the consent of your parent or guardian, or as otherwise provided for by applicable law.

Any changes to our privacy policy will be posted on this page so that you are always aware of what information we collect, how we use it, and under what circumstances we disclose it.

Tell us what you think

First Choice Technology, Inc. welcomes your questions and comments about our privacy policy. Please send e-mail to customerservice@firstchoicetele.com.
